

**Private Labeling** – Your logo available for maximum advertising and visibility on job sites

**Caraustar® Easy Pour™ Weather Shield Concrete Forming Tubes – One of the most extensive production networks in the construction marketplace as well as one of the most extensive in all product lines!**

**Perfect for columns, piers, pilings and footings.**

Caraustar® is leading the way in the concrete construction industry – Combining innovative technology and knowledge-based engineering, all backed by Caraustar signature customer service.

Caraustar® Easy Pour™ Weather Shield concrete forming tubes are built to withstand the rigors of construction. Designed to hold the full hydrostatic pressure load of concrete in a single continuous pour\*, Caraustar® Easy Pour™ Weather Shield tubes have earned their mark as a “go to” standard for the most demanding construction projects.

Shields against moisture and adverse weather conditions to help keep the elements from impacting your construction schedule.

**Weather Shield Technology**

– Improved water resistance minimizes schedule changes due to inclement weather. Provides increased strength and durability vs. regular column forms

**Superior Performance**

– Economical one-time use with easy placement – lightweight, easy-to-store, handle and erect

**Tube Strength**

– Handles extensive concrete vibrations

**Full range of diameters – 6” to 60”**

**Recyclable**

**Private Labeling** – Your logo available for maximum advertising and visibility on job sites – standard or custom lengths. Low upfront costs, reasonable minimums, and a variety of paper and ink color selections

**LEED® Qualified** – Manufactured with 100% recycled paperboard produced by our own mills

**Wall Thickness** – Standard wall thickness to 12 feet; heavy wall thickness to over 30 feet

**Poly Inside Ply** – Ensures easy stripping without form- release agents

**Installation** – Easily placed manually or by crane

**Availability** – Manufactured at Caraustar® plants throughout the United States and Canada

\*pouring rate based on tube size and specific job site conditions
