

METAFORMS®

Steel Curb & Gutter

Save Time...Save Labor...Save Lumber with Metal Concrete Forms

Curb and gutter formwork utilizes the standard Metaforms® in conjunction with division plates, top spacers and face forms to create a wide variety of cross sections. Base-Line™ or Slim-Line™ concrete forms can be used as the "back form" or the "front gutter form".

Metaform® curb face concrete forms, available in any of the six basic styles illustrated, are an essential part of the form equipment necessary for profitable construction of quality curb and gutter work. These concrete forms not only produce curb faces which are accurate and uniform, but they greatly reduce the time and labor ordinarily spent on finishing.

FACE FORMS

Properly selecting the correct face form to match the specification along with the contractor's need is crucial. Face forms can be made to match existing forms or to meet a new specification. Several face form configurations are shown below.

Single Radius with batter Single Radius-vertical Straight Face with Batter

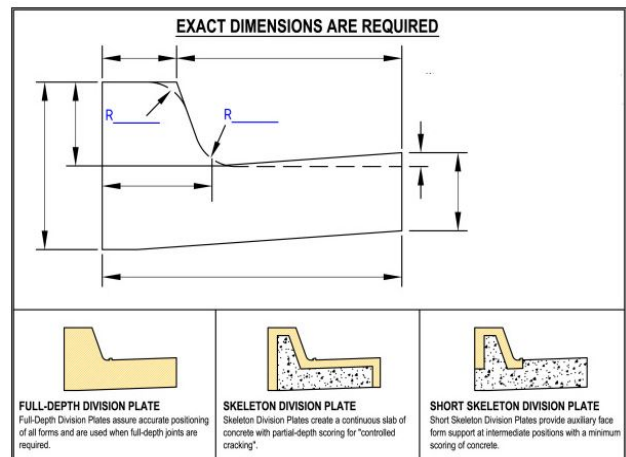

Straight Face-Vertical Double Radius with Batter Double Radius Vertical

CURB & GUTTER COMPONENTS

DIVISION PLATES Division plates have two roles. One is to put all forms into proper configuration and the other is to allow for proper scoring of the concrete.

Heltzel Style Curb Concrete Forms Metal Forms straight Heltzel style curb forms are available with the option of 2 inch or 3 inch top and bottom rails.

LIGHTWEIGHT FORMS

12 Ga. SPECIAL ANALYSIS STEEL
Streamlined design permits easy handling and efficient transport

Part #	LIGHTWEIGHT FORMS	100' Setup For Straight Work	Weight (lbs)
412-001	10 - 10' lengths 12" Back Curb Form (3 stake pockets)	800
406-002	10 - 10' lengths 6" Front Gutter Form (3 stake pockets)	500
481-000	10 - 10' lengths 6" Face Form (1" batter, 1-1/2" bottom radius)	450
265-0SL	11 - 6" x 12" x 24" Division Plates	88
065-006	20 - 6" Curb Top Spacers	45

HEAVY DUTY FORMS

10 Ga. SPECIAL ANALYSIS STEEL
Heavy-duty design ensures rugged performance and long life

Part #	HEAVY-DUTY FORMS	100' Setup For Straight Work	Weight (lbs)
312-001	10 - 10' lengths 12" Back Curb Form (3 stake pockets)	1090
306-001	10 - 10' lengths 6" Front Gutter Form (2 stake pockets)	680
381-006	10 - 10' lengths 6" Face Form (1" batter, 1-1/2" bottom radius)	500
265-0BL	11 - 6" x 12" x 24" Division Plates	88
065-006	10 - 6" Curb Top Spacers	22.5

FLEXIBLE RADIUS FORMS

12 Ga. SPECIAL ANALYSIS STEEL
Six (6) V-Type Stake Pockets

Part #	RADIUS FORMS	100' Setup For Straight Work	Weight (lbs)
112-001	10 - 10' lengths 12" Back Curb Form (6 stake pockets)	650
106-001	10 - 10' lengths 6" Front Gutter Form (6 stake pockets)	450
211-006	10 - 10' lengths 6" Face Form (1" batter, 1-1/2" bottom radius)	600
265-0FL	10 - 6" x 12" x 24" Division Plates	80
265-0FL	30 - Short Skeleton Division Plates	240
