Column formwork Frami Xlife

For forming columns from
the Frami Xlife construction kit

formtechinc.com

For forming columns from the Frami Xlife construction kit

Universal panels from the framed formwork systems are ideal for forming varied cross-sections of column in 2" increments – without needing a dedicated column formwork system on the site.

Flexible, fast forming

with Frami Xlife universal panels

Fast and efficient working, thanks to

- ③ column cross-sections of up to 36" square
- ③ flexible adaptation in 2" increments
- ③ panels are quick to assemble and reset
- ③ high-grade Frami Xlife sheet and hot-dip galvanized frames

Reduced quantities and costs

from maximized utilization of the formwork

The Frami Xlife universal panels have many different uses

- ③ for columns
- ③ for corners
- ③ for bulkheads
- ③ for wall junctions
- ③ or simply as Frami Xlife wall elements

Enhanced safety

with the Ladder system XS

Safety right from the start, thanks to

- ③ safe workplace access routes for climbing up and down
- ③ safe handling for attaching and detaching the formwork
- ③ safe working during pouring operations
- ③ permissible fresh-concrete pressure 1,650 psf

Frami tie off handles are built into every frame and meet OSHA requirements.

Precision Concrete Construction, Inc. utilized Doka's Frami column formwork to construct many of the stadium's exposed columns which required a smooth finish. Braves Stadium, Gwinnett County, Georgia
